October is Breast Cancer Awareness month. Breast cancer affects both men AND women and it is highly treatable if caught early.

Did you know that a breast self-exam (BSE) is a tool that may help you become familiar with the way your breasts normally look and feel? BSEs may help you find tumors in the time between your annual mammogram and/or clinical breast exam. For men, it may be the only time that such a test is performed.

Doing a BSE is easy and you can learn how to do one by visiting [www.komen.org](http://www.komen.org) and selecting Understanding Breast Cancer > Early Detection & Screening.

For more information on breast cancer in men, a helpful site to start with is [www.breastcancerinmen.com](http://www.breastcancerinmen.com).
What will YOU learn this month as a Wellness Warrior?

Recipe of the Month

Healthy Vegetable Gumbo (by Chef Paul at HAP)

4 Tablespoon(s) Paul Prudhomme’s Meat Seasoning
6 cup(s) mustard green chopped
3 cup(s) onion chopped
2 cup(s) green bell pepper chopped
2 cup(s) celery chopped
3 cup(s) okra, fresh sliced
3 bay leaf
1 cup(s) apple juice
6 Tablespoon(s) flour, all-purpose browned
3 cup(s) vegetable stock, low sodium
3 cup(s) collard greens chopped

6 cup(s) brown rice, cooked
Preheat a heavy 5-quart pot over high heat to 350°, about 4 minutes.
Add 3 cups of the mustard greens, 2 cups of the onions, all of the bell peppers and celery, 1 cup of the okra, and the bay leaves. And 2 tablespoon of seasoning.
Cook for about 8 minutes stirring occasionally to check for sticking.
Add the apple juice and remaining seasoning mix, stir, and cook until most of the liquid is absorbed, about 6 to 8 minutes.
Add the browned flour and stir until it is completely absorbed and a paste forms.
Cover and cook 1 minute.
Add both the stocks, stir well, cover, and bring to a boil, and cook 3 minutes.
Add the collard greens, the remaining mustard greens, onions, and okra, and mix thoroughly.
Cover the pot and bring to a boil, about 5 minutes.
Serve over rice.
